

Indications for Thermographic Evaluation

Altered Ambulatory Kinetics	Nerve Impingement
Altered Biokinetics	Nerve Pressure
Arteriosclerosis	Nerve Root Irritation
Brachial Plexus Injury	Nerve Stretch Injury
Biomechanical Impropropriety	Nerve Trauma
Breast Disease	Neuropathy
Bursitis	Neurovascular Compression
Carpal Tunnel Syndrome	Neuralgia
Causalgia	Neuritis
Compartment Syndromes	Neuropraxia
Cord Pain/Injury	Neoplasia
Deep Vein Thrombosis	(melanoma, squamous cell, basal)
Disc Disease	Nutritional Disease
Disc Syndromes	(Alcoholism, Diabetes)
Dystrophy	Peripheral Nerve Injury
External Carotid Insufficiency	Peripheral Axon Disease
Facet Syndromes	Raynaud's
Grafts	Referred Pain Syndrome
Hysteria	Reflex Sympathetic Dystrophy
Headache Evaluation	Ruptured Disc
Herniated Disc	Somatization Disorders
Herniated Nucleus Pulposus	Soft Tissue Injury
Hyperaesthesia	Sprain/Strain
Hyperextension Injury	Stroke Screening
Hyperflexion Injury	Synovitis
Inflammatory Disease	Sensory Loss
Internal Carotid Insufficiency	Sensory Nerve Abnormality
Infectious Disease (Shingles, Leprosy)	Somatic Abnormality
Lumbosacral Plexus Injury	Superficial Vascular Disease
Ligament Tear	Skin Abnormalities

Lower Motor Neuron Disease

Malingering

Median Nerve Neuropathy

Morton's Neuroma

Myofascial Irritation

Muscle Tear

Musculoligamentous Spasm

Nerve Entrapment

Thoracic Outlet Syndrome

Temporal Arteritis

Trigeminal Neuralgia

Trigger Points

TMJ Dysfunction

Tendonitis

Ulnar Nerve Entrapment

Whiplash
